**DIRECT FROM QUARRY: NATURAL STONE DISTRIBUTOR HITS SOLID GROUND WITH THEIR NEWEST LOCATION: 10739 GLENSHIRE DRIVE, TRUCKEE, CA 96161**

Ripon, California – April 21, 2010

In following competitive business trends, local business creates value added services for building, landscape architects and design professionals. Valley Natural Stone is a seasoned distributor of the highest quality natural stone products, providing cost effective solutions in the procurement, inventory management, warehousing and distribution of natural stone product both locally and nationwide.

The addition of their latest retail location located at 10739 Glenshire Drive, in Truckee, CA is further proof that Valley Natural Stone is growing as a result of a sensible business model. "We are very aware that the current stone market is in dire need of a fundamental change in distribution. Valley Natural Stone is at the forefront of creating that change", says Tim Spence, President of Valley Natural Stone. "Through a strategic partnership with Trout Creek Landscape, we are well positioned to better serve a Tahoe/Truckee market that is hungry for options".

A specialist in Architectural and Landscape stone supply throughout California, services are tailored to support building, landscape architecture and design professionals; including wholesale and retail operations. Meeting the goal of managing these services nationwide is now a reality with the addition of national distribution/sales network.

*Wholesale direct purchasing...*

By focusing on customer short and long term product needs, Valley Natural Stone offers order placement / distribution services to simplify the purchasing process. By controlling the procurement, inventory management, warehousing, freight (Rail or OTR) of all stone materials, Valley Natural Stone can provide the highest quality materials with the most competitive pricing.

*Warehousing for product on demand...*

Valley Natural Stone can either deliver specified stone material direct from quarry to the job site or warehouse the product and delivering material to the job site when called for. *For more information or immediate job analysis, contact Valley Natural Stone at 209.599.2038.*
